

City of Houston—Houston Public Works
Code Enforcement Green Building Resource Center

Presents an Education Seminar in partnership with the Texas Chapter of the US Green Building Council

This event is generously underwritten by 

Green Flood Resistance

Houstonians don't want to flood their buildings again. Do we talk about the buildings or the surroundings? How about both? Dr. Bedient will discuss flooding from a historical perspective and what might happen based on the latest news. Ryan will talk about maintaining balance between the built and natural environment from the perspective of a resilient LEED Platinum campus in the Woodlands designed to sustainably manage stormwater. Andrew has a group making flood resistant kitchen cabinets in reaction to the amazing amount of flooded cabinets now landfilled after Hurricane Harvey. CEU's available.

Speakers.....

- Phil Bedient, PhD**, Professor
Rice University
- Ryan Bare**, Hydrology Research Associate,
Houston Advanced Research Center (HARC)
- Andrew Cobb**, Partner
West Street Recovery

Held in the Green Building Resource Center located in the Houston Permitting Center with its LEED Gold Certification since 2012. The GBRC is Houston's best location for seeing displays of green building materials and strategies.
