

Power Strip

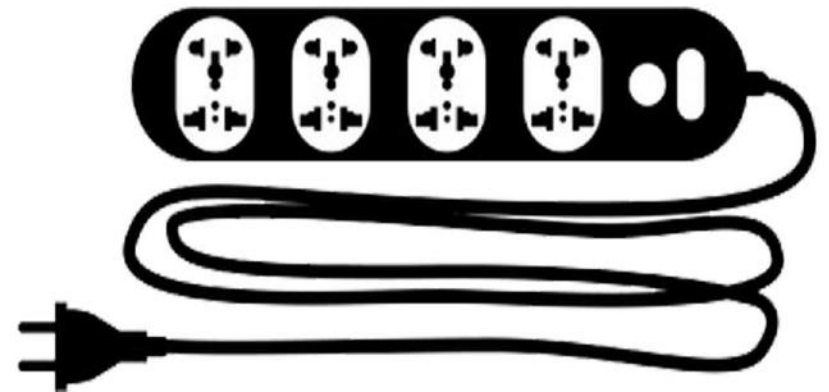

Use a power strip as a central "turn off" point to completely power off the office equipment.

Many electronics continue to draw power even when they are off. This is known as **VAMPIRE POWER**

VAMPIRE LOADS ADD UP TO NEARLY **\$200** YEARLY IN THE AVERAGE HOME

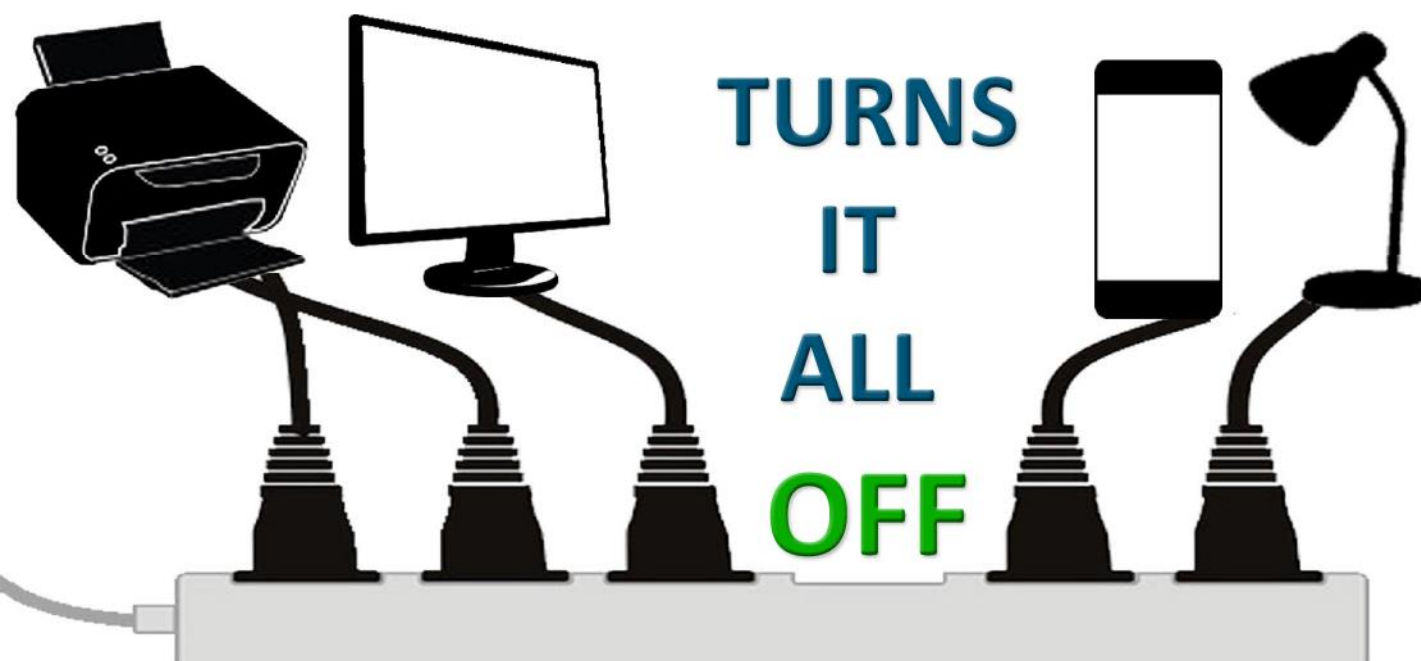

THIS WASTED ENERGY COULD HAVE POWERED **11,000,000** HOMES

USING A POWER STRIP CAN SAVE AS MUCH AS **75%** ON MOST OFFICE PRODUCTS

Nationally, standby mode accounts for **100 billion** KWh of U.S. electricity consumption & **\$10 billion** in energy cost

BE THE SWITCH
