

City of Houston—Public Works & Engineering
Code Enforcement Green Building Resource Center

Presents an Education Seminar in partnership with the Texas Chapter of the US Green Building Council

This 2019 series is generously underwritten by 

Solar in Houston: 2019

What's new with solar? Time for an update. A solar farm is in development for Houston, and Tesla will tell us what their solar offering is these days. In addition, we'll have a bit of permit data about solar installations in Houston.

Dori will discuss her C-40 proposal to the City of Houston to convert a brownfield landfill to a solar farm including systems thinking and recent progress in the community solar movement. Mark will fill you in on the various solar products offered by Tesla, such as those solar roof tiles you've heard about, and how those are different from the other products on the market. CEU's available.

Speakers.....

Dori Wolfe, Founder
Wolfe Energy, LLC
Mark Mason, Market Manager
Houston Metro/Mexico of TESLA

Held in the Green Building Resource Center located in the Houston Permitting Center with its LEED Gold Certification since 2012. The GBRC is Houston's best location for seeing displays of green building materials and strategies.
