

GBRC APRIL ON LOCATION TOUR
IN PARTNERSHIP WITH USGBC TEXAS:

LEED TOUR: POST HOUSTON

Tour a LEED BD+C Gold Certified historic large mixed-use adaptive reuse project to understand what went into making it LEED. While LEED is not new, it's never easy. And the building embodies the largest rooftop park and farm in the USA. The presenters have been involved in the development of the project and will speak to the green building and performance attributes. Rather than a seminar with slides, the information will be provided in real time as the attendees traverse the various spaces in the building.

401 Franklin St, Houston, TX 77201

April 13, 2023 | 5pm - 6pm

Meeting at the 5 story administration building lobby
Available CEU credit for architects (1hr HSW CEU)

TO RSVP: STEVE.STELZER@HOUSTONTX.GOV
