

City of Houston—Public Works & Engineering
Code Enforcement Green Building Resource Center

Presents an Education Seminar in partnership with the Texas Gulf Coast Chapter of the US Green Building Council

Green Schools: Higher Performance

Creating Culture Change & Saving \$: People want to hear how Greener Buildings can save money, which they do. But the impacts of green buildings can go so much farther when those buildings are schools. We are creating the culture of the future by training our children to make sustainable choices and live in harmony with the environment.

Come meet an expert who has saved a school district \$3,000,000/year through green design, an Energy Manager who will describe the impact of building operations on the district budget and how including operations personnel can save huge amounts of money, and a former educator with a doctorate exploring the impacts of Green Buildings on student performance.

Speakers.....

- Chad Corbitt**, Energy Manager,
Klein Independent School District
- Mike Dieterich**, LEED AP, President
RISE Industries
- Caroline Kostak**, LEED AP-H, LEED Rater
GreenHouse Integration
- Dr. David Phillips, PhD**,
Former 9th grade Dean, Yates HS

Held in the Green Building Resource Center located in the Houston Permitting Center with its LEED Gold Certification since 2012. The GBRC is Houston's best location for seeing displays of green building materials and strategies.
